

Gypframe® Essential

T38 Exposed Ceiling Grid

Benefits

Ease of installation

Fit-for-purpose

Can be recycled

Gypframe® Essential exposed ceiling grid provides a fit-for-purpose solution to installers. Formed in Gyproc's metals plant, located in Germiston, South Africa, the grid draws on 37 years of experience in ceiling grid production, for peace-of-mind.

Gypframe® Essential

T38 Exposed Ceiling Grid

Product

Gyproc's R&D team have evaluated the performance of the product and following the ASTM C635 standard is classified as a light-weight grid, suited to carry a load no greater than 12Kg/m².

Gypframe® Essential does not carry the Gyproc SpecSure systems performance warranty and site support, however it is supported by the standard Gyproc product warranty.

Storage instructions

The cartons are to be stored on pallets, indoors, that accommodate their length and stacked to a maximum of eight cartons high. When pallet loads are broken the cartons are not to be leaned against walls or stacks of products on end face. When loading or unloading the carton should not be tilted and slid-off a load-bed.

Characteristics

- Profile T-bar 38mm web with 24mm face
- Capping Frost White painted steel
- Metal gauge. Main tee & capping 0.30mm
Cross tee = 0.25mm
- Galvanizing level . . . Z100 (C1 & C2)
- Duty rating Light Duty - 12.0kg/m²
- Suspension Galvanized wire or hanger strap
- Pieces/box 20 pieces 3600mm main tee (22.8Kg)
. 60 pieces 1200mm cross tee (19.5Kg)
. 60 pieces 600mm cross tee (9.6Kg)
- Misc No Fire-notch, bulb hole spacing 150mm centre-to-centre
