

Board Products

RhinoBoard® MoistureResistant™

Gyproc MoistureResistant™ is manufactured with water repellents in the core, making it possible to use drywalling in wet areas where it was previously unimaginable.

Marketing description

It can also be used as a base for tiling and works in environments up to 70% humidity.

Key Facts

Gypsum plasterboard with silicone impregnated Gypsum core.

Application

Used in Gyproc partition, wall lining and ceiling systems to give increased moisture vapour resistant.

Packaging

Materialcode	Article name	Sales packaging
4134	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 3600 mm
4132	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 3000 mm
4131	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 2700 mm
20162	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 3600 mm p/stack(50)
20161	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 3000 mm p/stack(50)
20160	RhinoBoard® MoistureResistant™ 15 mm	1200 mm x 2700 mm p/stack(50)
20159	RhinoBoard® MoistureResistant™ 12.5mm	1200 mm x 3000 mm p/stack(60)
20158	RhinoBoard® MoistureResistant™ 12.5 mm	1200 mm x 2700 mm p/stack(60)
1256	RhinoBoard® MoistureResistant™ 12.5 mm	1200 mm x 3000 mm
1255	RhinoBoard® MoistureResistant™ 12.5 mm	1200 mm x 2700 mm
