

At Saint-Gobain, the start of a new year brings renewed energy and focus on delivering solutions that truly make a difference. Our unwavering commitment to innovation drives us to address the most pressing challenges of modern living, including enhancing comfort, wellbeing, sustainability, and performance.

As part of our ongoing efforts to optimise efficiency and align with market demands, we regularly evaluate our product offerings. This dynamic process ensures we remain relevant and responsive, although it may mean saying goodbye to certain products. This thoughtful curation allows us to focus on delivering better, more impactful solutions.

As we prepare to enter the new year 2025, we wish to inform you that some products have been discontinued and are no longer available. We thank you for your understanding as we continue to innovate and enhance our offerings.

Date of discontinuation 29 November 2024

Anton Marais

Head of Product and Innovation
Saint-Gobain Gyproc

At Saint Gobain, we prioritise delivering innovative solutions that reflect the evolving needs of our customers. Our dedicated efforts have led to the creation of solutions addressing the pressing issues of comfort, wellbeing, sustainable commitment, productivity, and performance.

Our commitment to innovation is evident in our product range. In fact, a quarter of the products we sell today were non-existent five years ago. We strive to stay attuned to our customer's evolving needs and aim for the most efficient utilization of our production resources.

In our pursuit of optimised efficiency, we regularly reassess our product portfolio. This includes refreshing it in line with current trends and market demands. As a result, it's possible that certain products may be discontinued from time to time. This routine evaluation not only aligns our offerings with the current customer needs but also makes the best use of our resources.

Please note that some products have been discontinued and are no longer available for purchase.

Date of discontinuation 18 October 2023

However, our portfolio continues to evolve. We have launched exciting new products in the past year, which have now become part of our active product catalogue. Should you require our most current product catalogue, which includes all products presently available as well as the ones newly introduced in the past year, please do not hesitate to reach out to us.

Regards,

Anton Marais

Head of Product and Innovation
Saint-Gobain Gyproc

As we continue to evolve and improve our product range, we recognize the importance of providing clear and detailed information regarding our past product changes. On this page, you will find a comprehensive list of the SKUs that have been discontinued in previous years. We trust this will serve as a handy reference for you.

Date of discontinuation 6 June 2022
